

AMENDMENTS TO THE SPECIFICATION

Pursuant to 37 C.F.R. § 1.121, please amend the Specification.

Prior to the heading reading “Detailed Description of the Preferred Embodiment” please add the following new text:

--Acronyms:

1. ATM – Asynchronous Transfer Mode
2. RRC – Radio Resource Control
3. RANAP – Radio Access Network Application Part
4. NBAP – Node B Application Part
5. RNSAP – Radio Network Subsystem Application Part
6. ALCAP – Access Link Control Application Part
7. PVC – Permanent Virtual Circuit
8. AAL2 – ATM Adaption Layer Protocol Type 2
9. AAL5 – ATM Adaption Layer Protocol Type 5
10. QoS – Quality of Service
11. IP – Internet Protocol
12. NAS – Network Attached Storage
13. UE – User Equipment

- 14. CN – Core Network
- 15. UTRAN – UMTS (Universal Mobile Telecommunications System) Terrestrial Radio Access Network
- 16. DiffServ – Differential Services
- 17. VLAN – Virtual Local Area Network
- 18. CPCI – Compact PCI (Peripheral Component Interconnect)
- 19. OAM – Operations, Administration, and Maintenance
- 20. RRM – Radio Resource Management
- 21. MACC – Media Access Control Communication
- 22. RLC – Radio Link Control
- 23. PDCP – Packet Data Convergence Protocol
- 24. GTPU – GPRS (General Packet Radio Service) Tunneling Protocol
- 25. MTP3B – Message Transfer Part Level 3 Broadband
- 26. SSCF
- 27. SSCOP – Service Specific Connection Oriented Protocol
- 28. SSCOPHE--
